

Experience

Product Designer

| May 2020 - Present | Ann Arbor, MI

- Research customer needs to design effective solutions that fit their workflows
- Create and maintain documentation & component libraries for finished designs
- Optimize processes within product team to improve collaboration with engineers

UX & Product Design Lead

| May 2019 - Mar 2020 | Ann Arbor, MI

- Designed the UX and UI for a voice-enabled banking assistant product
- Worked closely with engineers to bridge gap between design and development
- Created digital ads and marketing collateral to tell the product's story

Product Design & Web Development Intern

AI | May 2018 - May 2019 | Ann Arbor, MI

- Built and maintained customer-facing website, CMS, and virtual help desk
- Wrote documentation and created schematic diagrams to aid in collaboration
- Audited and optimized the product email cadence and user experience

Digital Product Design Instructional Aide

U-M Center for Entrepreneurship | Jan 2018 - May 2018 | Ann Arbor, MI

- Assisted in teaching fundamentals of product design and the design process
- Graded and provided feedback on students' product design projects
- Held office hours twice per week to meet with students in class

Software Engineering Intern

CME Group | Jan 2017 - Dec 2017 | Chicago, IL

- Developed a loosely-coupled system to simulate trading behavior
- Wrote software in Java and tested its performance, parallelism, and accuracy
- Gained insight into the financial world of futures and options trading

Projects

A2 Helps

Cahoots | Mar 2020 - Oct 2020 | Ann Arbor, MI

- A2 Helps supports healthcare professionals and local businesses during the COVID-19 crisis and was launched two weeks after conception by a team of 10 volunteer engineers, designers, and marketing professionals. I contributed design and web development work.

UX Design Capstone Project

- **UX Design Capstone Project** | Sept 2019 - Apr 2020 | Ann Arbor, MI
- **U-M Precision Health** | Sept 2019 - Apr 2020 | Ann Arbor, MI
- **U-M Precision Health** aims to improve the health and wellness of individuals and communities through multidisciplinary medical research across campus. I worked on a team with two other students to redesign their website's user experience and information architecture.
